NEW-YORK, SATURDAY, NOV. 17.

Oor Ricetion-The Result. It is now ascertained beyond a reasonable doub

that four of our State Officers (including the Judge of Appeals) have been chosen by each of the great parties-namely, the four on each ticket generally supported by the Anti Renters-and that the Legislature stands exectly fied-the Whige baving a nejority of two in the Senate, while their oral-

what larger than that cast for their opponents .-The difference will not be large, and on the State Ticket may be the other way; but take the average of all the tickets, and we are confident there is a Whig majority. Why the State Ticket fails behind will be next seen. IV. There is a nucleus of organization in most

of the Counties wherein large tracts of land are owned by few persons and farmed on long leases under the name of 'Equal Rights' party or 'Auti Renters.' Some years it makes separate nominations; at other times it refrains. This year its state Convention assembled, and the majority of its members (being Loco-Focos, and calculating that their party could carry every thing) broke up without making a ticket. A portion, mainly Whigs, remained and made a half-and-half ticket. A large part of the Loco-Foco Anti-Renters refused to recognize or support this ticket; so the "while the Whig Anti-Reuters very generally voted a half-and half ticket, the Loco-Foco Anti-Post and the popular and that is a popular as well as a proper to all the required of the convention of the reduction of the convention voted a half-and half ticket, the Loco-Poco Anti Renters voted the Loco Foco entire. Hence the average vote of Delaware, Sollivan, Rensselser and Schoharie is far less favorable to the Whise side than it should have been. We do not mean that there were no Loco-Foco votes for the Anti-Rent fusion, but there were far less than wer east for it by White.

V. The vote of the Whig strong bolds, say Chautanque, Erie, Genesce, Essex, Repaselaerfully polled as that of the antagonist sties Herkimer, Warren, St. Lawrence, Otse go. Delaw-re, &c. There are exceptions both ways: for Washington has poiled a good vote,

**Passons G Jewert, of Osondays, Judge of Appeals, Wassinstone Hour, of Niagran, Controller;
Charterona Moran, of Cayaga, Servicery of Sistic,
**Carta Charteron, of Otergo, Attenney General;

All these have majorities ranging from 5 000 to
1,500; Mr. Pollett's as Ganal Commissioner being lowest, as Nelson J. Beach, the present London, the universal rights of humanity, recognities in several Counties. Washington Hunt has also received some votes from the opposite party, while Mr. Jawett, as the present Judge, and as ranging in this City on the same toket with plage Jones, has received some Wing votes, and so has Mr. Chatfield for Attorney General—for reasons to as unknown.

The new Legislature divides as follows:

**Assential State of many years, if ever. We are willing to regard it as a drawn battle, all though there are many reasons why it might very fairly be contended that the advantage is decidedly with the Whigs. Among these reasons are the following:

dedly with the Whigs. Among these reasons are the following:

I. While the offices filled by the two parties respectively are equal in numbers, the Whigs have by far the preferable portion, if we regard their relative importance. The office of Judge of Appeals is of no political account; that of State Prison Inspector of very little, while all the officers chosen by the Whigs are members of the Canal Board, and the control of the Canals is by their election around to our side for the consumpty year. A few clerks, &c. in the Assembly and the Attorney-General's office are all the appointments which should though two years; the Assembly for one only. There are no appointments of any political mark to be made by the Legislature this year; but another Session brings an election for U. S. Senator, in which our Senators now chosen will participate with a new Assembly.

The test through which he had just possed as triumphantly, cannot be more gratifying to himself than we are sure it is to a host of warm persons friends throughout the State, and we might say the Union, as well as to the cutire body of the Whigh party. —And now as to the future: We have next year to elect a Governor, Licut. Governor, Delegation to Congress, Assembly, and (indirectly) a U. B. Senator. Which party has the fairest prospect of success?
